**DETAILED ACTION**

***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 12/26/08 has been entered.

***Allowable Subject Matter***

2. Claims 1-23 allowed.
3. The following is an examiner's statement of reasons for allowance:

Regarding claims 1 and 18, the prior art of record to Ritter (3619783) teaches determining the channel to which a subscriber on a community antenna television system is tuned to by utilizing a radio frequency carrier wave generated by the local oscillator of the subscriber's sets and receiving the information upon interrogation of the subscriber unit by the command console. The prior art of record to Citta (4553161) teaches synchronizing upstream data packet time slots with the VBI of a video signal transmitted downstream from the headend in order to reduce the likelihood of collisions between upstream data packets and increasing through-put in a two-way CATV system. The prior art of record to Martinez (4208630) teaches using a phase-locked loop referenced to a transmitted frequency at both a central facility transceiver and remote transceivers to develop local oscillator frequencies that are extremely stable with

respect to each other. The prior art of record fail to reasonably show or suggest the time slots as determined by the time base at the central facility include a time slot corresponding to the time slot as determined by the time base at the termination section, wherein the time base at the central facility and the time base at the termination section are both independent of each other and are responsive to a broadcast time signal which includes an indication signal for synchronization of corresponding time slots.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
